53 YOUTHS RECEIVED  
IN FEDERATED CHURCH

The Federated Church witnessed an impressive sight Sunday morning when a class of 53 youths were received into the church. Nearly half the number were baptized in the presence of the congregation.

Of the class, 28 joined the Congregational church and 25 the Presbyterian. The public reception, however, was given to the whole class, by the members of both churches rising in a body.

Dr. M. D. Hardin of Chicago, who is conducting special services this week, addressed the class from the text "Reckon yourselves dead to sin and alive to God." The whole service was one of deep impressiveness. The service flag which hangs on the pulpit, and which represents new recruits in the service of Christ, will receive 53 stars, and will present an impressive call to others to join the colors during the next few weeks.

Special musical numbers by the choir directed by Prof. Taylor added much to the occasion. They sang a beautiful "Gloria," by Mozart and "Thy Life Was Given For Me," by Heinrich.

The following is the list of the young people who were members of the class and joined the church on yesterday:

Congregational: Ruth Fletcher, Jean Smith, Helen Smith, Geneva Lowth, Beulah Ransome, Margaret Mabel Kuhlman, Grace High, Esther Jones, Mildred Wade, Wilhelmelma Botsford, Lovida Langdon, Dorothy Bolton, Dortha Oestreich, Ottilie Oestreich, Evelyn J. OLD COUNCIL ENDS  
ITS WORK TONIGHT

Two meetings of the council are scheduled for this week, the final meeting of the old body tonight and the first meeting of the new municipal dictators Tuesday night when Mayor-elect Thomas E. Welsh takes office with Alderman-elect William J. Hill of the Fourth ward and Edwin J. Kelly of the Fifth ward.

Aside from the approval of the qualifications of the newly elected members tonight there appears to be little for the council to do.

Although there will be but two changes in the aldermanic seats, Mr. Hill for Mr. Welsh, who takes Mayor Arthur Jones, the old body will disband with all vital business in favor of the new council which will have innumerable weighty questions to pass upon in the next few months. A big gallery of spectators is expected at the city hall tomorrow night. The session promises to be a busy one.

"Let's Finish the Job,"  
K. C. Head to Councils

"Let's Finish the Job," slogan for the Victory loan, which opens a week from today and continues to May 10, is the opening paragraph of a letter from W. J. Nuss, state deputy of the Knights of Columbus, to members of Carroll Council No. 596, and other K. C. Councils in the state. State Deputy Nuss appeals to councils and individual members to put their every effort and prestige back of the Victory loan so that the Knights of Columbus "may finish our part in the world's struggle in the same spirit of true Americanism as we have shown during the entire time of trouble, and forever keep unsullied that beautiful flag, 'Old Glory!'"

**FIGHT BOLSHIEVISTS.**

The prediction is made that bolshie-  
vism in Russia will have run its  
course before next August. This ob-  
servation is made by men who have  
seen in Russia for the last few  
months and have been able to see  
conditions as they really exist.

This optimistic view of the situa-  
tion gives courage to those who are  
attempting to throttle unreasonably  
and inflammable radicals who are  
keeping Europe in a turmoil.

Keenest observers abroad, however,  
seem to be in agreement that if Ger-  
many once adopts bolshievism, noth-  
ing can prevent the movement from  
sweeping over the Rhine and engulf-  
ing the entire European continent. It  
is well known that France, Italy and  
the little countries of western Europe  
are swarming with ultra-radicals.  
With the great country of Germany  
in the hands of the bolshievists, these  
radicals would be emboldened to at-  
tempt the final stroke. The cry, "let  
us liquidate our debts and divide up  
our wealth," might easily prove irre-  
sistible in nations that have lost the  
flower of their manhood in battle and  
are today trembling on the verge of  
bankruptcy.

If all Europe should go the way  
Russia has gone, the world civilization  
would sustain a shock from which  
it might be generations in re-  
covering, and we in America would  
suffer in more ways than we can at  
this moment imagine. Plainly it is  
our duty to ourselves to aid in keep-  
ing bolshievism out of Germany. Al-  
though we hold no pity for Germany,  
we cannot afford to see her in the  
clutches of a menace which would  
enrich the whole world if its tenta-  
cles are not clipped before they grasp  
more territory.

It is perhaps necessary that we feed  
Germany to prevent her from falling  
into the hands of the red radicals. It  
may be necessary for us to send a  
group of administrative experts to un-  
tangle the sadly twisted affairs which  
have been brought about by the  
wholly incompetent Ebert govern-  
ment.

We cannot allow a cancerous sore  
to fester and spread without making  
some attempt to check it.  
It comes down to this. Shall we  
co-operate to fight a common danger,  
or shall we refuse to have anything to  
do with Germany, and leave her to  
her fate, and eventually suffer irre-  
parable losses? The answer seems to be  
but one sensible answer, and that is,  
"Help keep bolshievism confined to  
its present environments."

**VETERANS' ORGANIZATION.**

Men who have served the United  
States in the great war are being  
called together in an association to  
promote their welfare and perpetuate  
the comradeship of soldiers who did  
their bit.

Nearly 100 men who have been dis-  
charged from service and have re-  
turned to Janesville and Rock county  
met last week to sign the roster of  
such an organization. Every man  
who enlisted or who has an honor-  
able discharge should place their  
names on the local list. Plans are  
tentative now so that as the boys  
come back from France and Germany  
they will have the same privileges as  
those who are here. Permanent or-  
ganization will not be perfected until  
every one will have had a chance to  
join. Permanent officers will not be  
elected until every eligible man has  
had an opportunity to announce his  
choice.

That such an organization is neces-  
sary is not questioned. Many of the  
boys will come out of the great  
struggle unable to take up their life  
work where they left it. Some will  
be crippled and will need aid. After  
the novelty of greeting heroes has  
been lost by the general public, these  
men will have to turn to aid that will  
be substantial. Their comrades in  
arms naturally would be considered  
first as the men who would under-  
stand their needs. With a great or-  
ganization, such as the American War  
Veterans will be when it is finally  
formed, these men can be given the  
aid they will need with little expense  
to individual members.

Aside from the benefits to those  
who will need help, the sentimental  
side of the organization can be de-  
veloped.  
The G. A. R. is rapidly becoming  
smaller in numbers. Its ranks are  
being thinned daily. It is not the  
purpose of the American War Veter-  
ans to affiliate themselves with that  
organization, even if given the op-  
portunity. But they can use the same  
form of organization which has kept  
the G. A. R. so strongly united in the  
last fifty years. It can have its con-  
stitution and by-laws to pattern after  
and the mistakes which caused hard-  
ship in the early years of the life of  
the Civil War veterans' organization  
can be eliminated.

Another meeting of local American  
War Veterans will be held in this city  
the latter part of the week. Every  
man who has an honorable discharge  
from service should be present, and if  
his name is not already on the roll it  
should be put there.

**SENATORS WIN VICTORY?**

Republican senators who served  
notice on President Wilson that they  
would not ratify the league of nations  
plans as originally submitted, have  
evidently won a signal victory. At  
least a glance at the re-drafted cov-  
enant would so indicate.  
The revised provisions are pre-  
sumably intended to remove the ob-  
jections voiced by the 39 republican  
senators who signed the Lodge

"round-robin," and by other republi-  
can and democratic senators who  
would constitute a two-thirds major-  
ity and which would have been suf-  
ficient to block ratification.

Mr. Wilson at one time declared  
that the covenant could not be rat-  
ified and would not be amended, but  
statesmen and our president have  
seen their way clear to change their  
minds. It is quite probable that if  
the text of the revised articles con-  
form to the brief official summary of  
the amendment cabled from Paris, the  
senatorial opposition will dwindle so  
that a two-thirds majority will be as-  
sured when the matter comes up for  
ratification.

The objections raised and the  
amendments adopted to remove them  
are: Nullification of the Monroe doc-  
trine—Proviso inserted declaring that  
the covenant "does not affect the val-  
idity" of the Monroe doctrine.  
Abrogation of sovereignty—Amend-  
ment provides that armament can be  
reduced only with the consent of in-  
dividual states, and that the contribu-  
tion of armed forces to the league is  
optional.

Interference in Domestic Affairs—  
Amendment exempts domestic ques-  
tions from arbitration or inquiry by  
the league.  
Involuntary mandatories—Amend-  
ment provides that admission of ter-  
ritorial wards shall be committed to  
states willing to be mandatories.  
Withdrawal unprovided for—Provi-  
sions made for withdrawal of nation  
from league.

While opposition senators view the  
adoption of the amendments as a vic-  
tory they will withhold judgment and  
comment until they can study the text  
of the covenant in its perfect form.

With Debs on his way to a federal  
prison to serve ten years for violation  
of the espionage act, patriotic citi-  
zens who worked and sacrificed so  
that our soldiers could fight for de-  
mocracy will feel that their efforts  
were not in vain.

Aliens who have made millions of  
dollars in America, and are taking  
to their native lands, are taking their  
earnings with them. It looks as though  
the United States would have to help  
finance the bolshievist movement in  
Europe whether she wanted to or  
not. We perhaps could have saved  
these millions for our own use if we  
had started to Americanize these  
aliens earlier.

We were more or less worried for a  
time over the prospect of the legis-  
lation compelling its work without  
making some sort of investigation.  
But the state's reputation is saved and  
it can take its place along with its  
neighbors. The law-makers are going  
to investigate both the International  
Harvester company and the State His-  
torical society.

Rock county again has gone "over  
the top" in war work. She responded  
thickly to the call for old clothes and as  
a result the local Red Cross will be  
able to send its full quota to con-  
centration headquarters. Many a suffer-  
ing woman and child will thank Rock  
county citizens for their thoughtfulness.

In just this his worth is told; that his  
word was good as gold.  
And there wasn't any banker, but  
would gladly take his note.

He was not a great success, never  
mentioned by the press,  
There were very few who knew  
him, but no one had ever heard  
Any hint of sin or shame being con-  
nected with his name.  
And no one of him, has hinted that  
he ever broke his word.  
He just toiled from day to day, in a  
calm and easy way,  
Never sought the hills of glory or  
the pomp and power of rank,  
But he lived his whole life through  
in an honest way and true.  
And whenever he wanted money he  
could get it from a bank.

There may be in world success  
greater thrills of happiness,  
There may be compensation in the  
loud applause of fame,  
But when all is said and done he  
has his best reward has won  
Whose character is witnessed by  
an undishonored name.  
Though he lives apart, alone, and is  
very little known  
And the plaudits of the people,  
And round about, he's never heard.  
He can hold his head erect; for he  
owns the world's respect.  
When men say it to his glory that  
he never broke his word.

of the MOMENT**

**THE DOUGHBOY'S PRAYER.**  
(On going the rounds over there.)  
"Our father, who art in Washing-  
ton, hurried be thy name. Give us  
this day our delayed pay, and forgive  
us our AWOLs, as we forgive the  
bugler, and the Mess Sergeant, and  
all those who wear bars. Lead us not  
into the Army of Occupation, but de-  
liver us from the Fatigue Squad, for  
thine is the Army, and the S. P., and  
the Q. M., and Field Clerks, for ever  
and ever, Ah, our!"

It was her own affair, of course,  
when that woman started down  
New York way in a rowboat to go to  
Denmark, although she had no busi-  
ness there. A lot of people have gone  
to Europe with just as slight reason.

cars, according to the Wellington

stead of flying from the east to the  
west are riding brakebeams."

**ANOTHER LITTLE FLY.**  
Dear Roy, hope Joe Dunn will  
consider this the correct version of  
"Little Fly Upon the Wall." Let this  
settle the matter:  
Poor little fly, sitting on a wall,  
Didn't have nothing on at all.  
No little shimmy-shirt,  
No little petti-skirt.

A lady, who is some pumpkins in  
Baptist circles, asks us if we will ad-  
dress the Sunday school scholars on  
the subject, "The Effect of Smoking  
on Boys." We refused the honor for  
lack of proper qualifications, never  
having smoked on a boy during all  
our fumigating career. We have  
smoked on a cracker box, a beer keg,  
a pickle barrel and a plain, bump-  
backed chair, but never on a boy. The  
fact is a boy is too restless to insure a  
quiet smoke. —Riverston (Wyoming)

The trouble with some countries is they wish to expand  
sideways, over the poverty of their

## SAYS BASEBALL SUIT WON'T STOP SPORT; HERRMANN TO APPEAL

New York, April 14.—Commenting on the victory of the Baltimore Federal League baseball club in Washington yesterday in its suit charging the major league clubs with maintaining a monopoly of baseball, John A. Herrmann, president of the National League, said tonight:

"The question of authority of the Federal League committee to negotiate and make binding peace terms was raised deliberately and repeatedly in the committee met with us in New York in 1915. In every such instance full authority to make a settlement was guaranteed us by President Gilmore, chairman of the federal's committee."

"Every such declaration was made in the presence and hearing of President Rabin of the Baltimore Federal League club, who neither by act nor voice dissented. Yet because of the court's rulings on the points of law in the case this, to us important factor, was not given to the jury."

"Despite this unfavorable decision, however, there is nothing that cannot be remedied by a higher court, if error has been made. Should even the highest tribunal approve what has now been decided, I am confident that the game will go on as before. The game is not affected by the decision except in its business aspects, and I believe the public has little interest in those."

**Herrmann Sees Appeal.**

Cincinnati, April 13.—August Herrmann, chairman of the National Baseball Commission, who returned from Washington today, when informed of President Johnson's propositions, said they might be the outcome of the Baltimore Federal League suit, but that he did not believe it would be necessary to go as far as predicted by the American League president.

"We have prepared an appeal in the Baltimore club suit, will execute the matter probably will not come up during the coming playing season," Mr. Herrmann said.

"The national commission as a whole is preparing a statement and this will be ready in a couple of days. Pending the appeal of the verdict against us, baseball will be conducted as in the past."

## News Notes from Movieland

By DAISY DEAN

Bryant Washburn is quite proud of his young son and the young Washburn Jr. is just as proud of his distinguished father. Bryant Jr. wanted to be a soldier, but after seeing all of the naval officers on the west coast he changed his mind and decided that the navy was the best place.

He claims that he likes his daddy's pictures better than anybody's except maybe "Fatty Arbuckle's." Bryant Washburn's latest picture was "The Floor Boob," and his next one will be "Something to Do."

Appearing in "Good Morning, Judge" every night and two matinees a week, in addition to doing an act on the Century roof every night, is a young lady named Mollie King out of mischief. She just loves to work and isn't happy unless she is busy as the proverbial bee. Therefore Miss Mollie has signed up with American Cinema company, backed by southern capital, and will start work on a second floor.

## Old World Cannot Analyze Power That Makes Wilson Great Leader

Let me record the feelings—some-what mixed at the time, I admit, because of the hot and fresh impressions I had brought with me from 900 miles of motoring through ruined when the Paris conference passed the league of nations resolution. ## A WOMAN'S BUSINESS

ROY TO JANET.

On Board SS Megantic.  
Dear Janet: I am writing to you without a formal good-by to you, will you? And accept my apologies for not answering your dear, fine letter. You see, you took so much off my mind by sticking to the job that I just rose up like a balloon set loose. There was the Megantic sailing right away. I was just anxious for a holiday. So I just slid out.

Things began to happen as soon as I got on board. One of the Belgian relief commission made me accept an appointment on the staff. That means mountains of necessary, abominable, humane work. I'll send you several articles on the work for the magazine.

A submarine chased us. Nearly a whole day we lived in our life belts and hung around the lifeboats. It helped to pass the time away.

A Dutch capitalist made me a proposition to give rights to a Holland edition of our magazine. We're wrestling now for terms. I think I'll win. I'll cable when I've closed the deal. I'll cable when I've closed the deal. I'll cable when I've closed the deal.

Cargars, the buyer for the most exclusive importers in America, is on his way to Paris to bring back the latest in fashions for the wives of our multi-millionaires. I am commissioned to write for us what the Parisian women of average means are wearing.

Miss Helen Garvin, a regular good fellow, is going to be one of the best newspaper correspondents in the game. He is going to visit the prison camps of war-torn countries for a newspaper syndicate. I've arranged to have her do work for us at the same time.

You see, Janet, I am ready full up with things to do and think of every minute of my waking time. It will be still worse when I set foot on shore.

I find that I've taken on more work than I can do in an ordinary way. And I'm supposed to be on vacation. I almost forgot to reply to your letter, which I seem, in my rush of departure and frenzy of new enterprise, to have mislaid. You say something about our keeping up our friendship. Great Scott, yes, and again yes!

By the way, Miss Garvin has sketched to me the outline of a serial story she has placed with an agent. I think so well of the idea that I am asking you to give it your earliest consideration when it comes to you, as it will next week. If you cable me that it's all right, I'll close it with her on this side. I am to meet her from time to time during her trip.

How far away in time and space seems New York and all the rest of it. It is only six days ago! Although we are still a day away from the continent, already the shadow of a world at war has enveloped us. One's own affairs become so dwarfed in importance before these millions upon millions of supreme tragedies we are nearing. One feels shame-faced to think how much this of that turn of affairs troubled one's mind in that land of peace. Tomorrow when I arrive where death now wears the most familiar aspect and mutilated, survival is the greater tragedy, my personal concernment of these will seem even more trifling and forgettable.

Let me hear from time to time how you and Wait are getting along. The office will send me weekly reports of the magazine.

By the way, will you get hold of some of Miss Garvin's work and send me samples of it?

Sincerely and always with best wishes,  
JOHN NICOLSON.

"He is already forgetting me," Janet whispered to herself, her eyes shining with gladness. "I hope Miss Garvin is good enough for him!" she added with just a touch of wistfulness.

(To be continued.)

## FROCK OF FIGURED CALICO IS DEMURE

BY ELOISE.

There are two things which always come with the spring and both of them get on father's nerves just a bit more than his golf craves gets on mother's. They are spring housecleaning and the two weeks' visit of the sewing woman. Father never feels so out of place as when his house is filled with fragile paper patterns, and threads and ravelings, clinging tenaciously to everything, and mother is always talking with her mouth full of pins and calling him up three or four times to remind him to match that thread or get some samples of pink silk.

But it is in these spring days when the summer wardrobes are created. The summer suit this morning frocks, the dainty gowns for the garden parties, the wash skirts and all the other alluring things for warm days. Last year there was a vogue for printed calico because it was a conservation measure, but this year it will be the vogue because it is charming and inexpensive. Yes, it is a simple little frock like this one. Almost every home dressmaker will have at least one calico frock to make during her two weeks' occupation of the family dwelling and this style is so attractive because of its simplicity. Red and white figured calico, a gathered skirt, pockets, a V-neck, short sleeves, and black velvet bows, and there you have it, the demure frock of our grandmothers.

Orange Cup—Two oranges, two bananas, one large grapefruit, one lemon, one-half teaspoon salt.  
Take pulp from oranges and grapefruit; sugar to taste; one tablespoon lemon juice; slice bananas in cups; fill with pulp of fruit.  
Corn Oyster—One cup corn, one cup sweet milk, pinch of soda, one teaspoon baking powder, flour.  
Bake corn, add soda, milk, a pinch of salt; beat egg; add flour to make a stiff batter; fry in butter or vegetable fat; spread butter with vegetable hot.

Delicate Indian Pudding—One-half cup cornmeal, one quart milk, two eggs, one-half teaspoon salt, two-thirds cup sugar, one spoon butter, one hour.  
Scald cornmeal in a pint of milk, add butter and sugar, cold milk, one pint, and beaten eggs, nutmeg; bake one hour.

Honey Doughnuts—Two eggs, butter or meat drippings the size of an egg, one and one-half cups honey, one cup of sour milk to which has been added one teaspoon of soda, three cups of flour to which has been added two teaspoons of cream of tartar. If sweet milk is used, instead of sour, add one teaspoon of two level teaspoons of baking powder sifted twice with flour.

Parsnips on Casserole—Clean and cut parsnips in small pieces, put in casserole, add boiling water to half fill, salt, pepper, and butter. When tender, remove cover and brown over top. When removed from oven, scatter with butter. We much prefer them this way to any other way, for they seem to retain a better flavor.

FISH FOR LENT.

Baked Creamed Haddock—One pound haddock, two tablespoons butter, substitute two tablespoons flour, one cup milk, one teaspoon salt, one-eighth teaspoon white pepper, one-eighth teaspoon paprika, one tablespoon grated onion, one tablespoon chopped green peppers (if you like it).

Wash and boil the fish 15 minutes; drain, remove all skin and bone, break into small pieces, add to the sauce, mix lightly with much ramokins or guernsey dish with drippings, put in the fish and bake in hot oven until a nice brown.

Sauce: Put the butter, onion and green pepper into saucepan; when onion is cooked add the flour, mix well and add the cold milk slowly; when thick and smooth, add the salt, pepper, paprika, and mix well, then add fish.

Maitre D'Hotel Butter—One-fourth cup butter, substitute, one-half teaspoon salt, few grains paprika, one tablespoon lemon juice. Cream the butter substitute, add salt, paprika, parsley and lemon juice very slowly.

One of the largest electric plants in the world is being planned to supply power to the gold mines around Johannesburg, South Africa.

## The Daily Novelette

"I'll run over night away," exclaimed Dr. P. P. P. as he banged down the telephone receiver. "Richard! Put my dingieblitz glass, the pulchritude tester and the jagweed tweezers in the medicine case and crank up the flyover. I've got a case. And the eminent physician brushed up his two remaining hairs carefully and skipped down the stairs.

"What are the symptoms?" asked the doctor, of Mrs. Natus Halliday, Pittsburgh's most successful dog-in-sunder.

A strong odor of peanuts pervaded the room—may all the rooms.

Symptoms of what—oh, yes, I forgot. I phoned that my wife was ill, didn't I? Well, she just lays around all the time in a dazed sort of demitasse state—sometimes turning green and at other times red and vomiting.

"Ah! Just what I thought! That sounds like chronic eczema! You are feeding her too much scraggle and pig's knuckles. You'll have to—"

"But, doctor! My wife hates scraggle and pig's knuckles and she never—"

"Yes—yes, I know. Any more symptoms?"

"Let me see. Oh, yes! Every time I eat peanuts (I love peanuts, you know) she carries on dreadfully, jumping up and down and flopping on the floor and kicking the furniture all around and—"

"Ah—I see! So you eat peanuts? What kind of peanuts do you eat—salted or with the shells on?" asked the doctor.

"Why, with the shells on. And doctor, it's just shocking the way—"

## SIDE TALKS

—By— RUTH CAMERON

A NEW MOTHER FOR INVENTION.

There is one sure thing about living in the country—it certain teaches you to stand on your own feet. The city is a place of excellence, the place of specialists. When anything goes wrong in any department of the household, if you live in the city, you call in a specialist; if you live in the country, you fix it yourself.

What, You Do If You Live in the City.

Take the little (?) matter of plumbing, for instance. Suppose you are a city dweller, and something goes wrong with that apparently intricate system of pipes and sockets in the water tank in your bathroom. There is a plumber right around the corner, or, at the farthest, at the other end of the city. Just waiting to pick up his tools and charge you 20 much per minute for his walk to your house. It would be flying in the face of Providence to interfere in his department. And so you go to the telephone and that's the end of it (till the end of the month). The intricate system remains indefinitely a mystery to you.

What, You Do If You Live in the Country.

Suppose, however, you live in the country. The nearest plumber has his headquarters in B. eleven miles away. Very likely he is eleven miles from the other side of B. on an all-day job. And your call for help, when the water persists in acting queerly,

"Mr. Halliday, I hate to pain you, but your wife is suffering with an aggravated case of acute shell-shock. Give her these little gunpowders in nitro-glycerine once every hour. Good-day. I'll send a bill."

would only bring that interesting information from his wife. So what do you do? Why the only thing that is left to do is to get acquainted with the mystery of the ball and socket. You finally manage to work out the problem and fix what's wrong, and ever after you remain on friendly terms with the plumbing. I have used plumbing as a symbol of the way the country dweller has to stand on his feet because I think it is a good symbol, also, because it represents my own experience.

Plumbing Was One of the Seven Deadly Sins to Me.

For the last 36 years of my life I lived in the city within four blocks of the plumber and thought plumbing one of the seven deadly mysteries of the world. Then I acquired a summer residence in the country and learned to use my wits.

Of course, the plumber is only one of the many specialists who live right around the corner in the city. Next door to him is the doctor, on the other side the carpenter, across the street the furnace man, the locksmith, etc. They are all ready and eager to keep the city dweller in any way but his own specialty. Whereas, in the country, it's either learn to use your wits or suffer for the lack of them.

Truly to pervert an old proverb, "Distance is the mother of invention."

After 36 washings with hard soap, soda silica and perborate, respectively, linen and cotton textiles showed higher strength values with hard water than with soft water.

## Heart and Home Problems

BY ELIZABETH THOMPSON

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I unengaged to a man who is the only son of a widow. She is a very disagreeable woman and known for her closeness and possessiveness. I am not, too, but do not believe in making a slave of myself and when I chose to leave the dishes until the next morning I should like to have the privilege.

I have heard his mother have always lived together and now they want me to marry my fiancé and live with them. I know now I could never stand it. I have said I want a home of my own, but my fiancé says that if I love him I will sacrifice myself a little to help make a home for his mother.

Am I unreasonable to refuse to marry unless I have my own home? I do love my fiancé and I want to marry him soon, but I will not under the conditions he asks.

I would be willing to live in part of a two-family house, but they don't want even that. They do not object because of cost. They have plenty of money to do the things they want to. What do you think I should do?

I think you should be very positive in your refusal to live with the man and his mother. It is hard enough at best for a mother-in-law and daughter-in-law to get along together, but in your case it would seem quite impossible since she has habits which would make you unhappy. Your plan to live in a two-family house seems good, then both you and your fiancé could have jurisdiction over your own homes. Marital happiness depends so much upon getting the right start.

Dear Mrs. Thompson: My daughter is corresponding with a soldier overseas. We have forbidden her to do so, as he has been married and did not support his first wife and has a bad character otherwise.

We received a letter from him again and opened it and he speaks of meeting her somewhere. I am not sure he is not trying to get her to be his mistress. She is only 17 years old. What shall we do, give her the letter to read or write to him otherwise?

I do not believe that parents should read a letter addressed to their child unless given permission to do so. Confidence is not gained easily and if the child knows she is not trusted she keeps her plans and experiences secret.

Since you have opened this letter I think you had better answer the young man. Do not let him write to your daughter again. Give her his letter and tell her what you have done. I think you owe her an apology for looking into her mail. It would not pay to deceive her by remaining silent about the letter. She might find out some time and then she would never trust you again.

Do not hold tight reins with your daughter. Give her freedom in every way possible and respect her judgment. If she is given a normal outlet for her feelings and desires there will be less danger of her seeking undesirable friends—she will be content with her own kind.

Dear Mrs. Thompson: (1) I am a blond and have blue eyes and fair hair. What color would I look best in?

(2) I have been writing to a sailor for some time and he stopped writing. Should I write again or let him go? I like him very much. JEAN B.

(1) Since your eyes are blue, blue is your best color.

(2) Do not write to the sailor unless you hear from him.

BY WILLIAM BRADY, M. D.

LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

## RICKETS

Rickets is a constitutional disease affecting the muscles, blood, nervous system, internal organs and bones. The most characteristic effects are deformities of the bones which appear at various times in childhood, but rickets is not merely disease of the bones.

The cause of the disease is not positively known, but we are reasonably certain that it depends upon a deficiency of fat-soluble vitamins in the diet of the child. Just what the fat-soluble substance is, no one has as yet determined. But we know, for example, that fresh milk does contain fat-soluble vitamins.

A bottle baby receiving some substitute for modified fresh raw milk begins to be ill-tempered, restless, peevish, colicky, pale, flabby and constipated. When lying on the back the child roils the head from side to side much of the time, and often the friction causes a bald spot on the back of the head. The child unable to hold the head up erect when taken in the mother's arms. There is excessive sweating about the head, the sweat having a sour odor. The child, if old enough to creep or run about, evinces no desire to do so, compared with a healthy, properly fed baby, the child looks pale (though perhaps fat) and the muscles lack the firmness one can feel in the muscles of a healthy child.

One feature of rickets is a diffuse soreness of the whole body, on which account the child does not like to be handled or moved. A second feature is slight fever, 100 to 101½ degrees, which makes the child restless at night. A third feature is the profuse sweating about the head.

There is some inherent deficiency of lime metabolism in rickets. The bones and muscles fail to assimilate enough lime. This is not due to insufficient lime in the food, but to some physiological fault not now understood.

All cuis born to lions in the London zoo died of rickets until Bland Sutton suggested these additions to their food: milk, pruned bones, and cod liver oil. Milk (fat, marrow fat and liver fat are well known now to be rich in fat-soluble vitamins. Pure cod liver oil is one of the best remedies we have for rickets. Pure fresh raw milk, properly modified to suit the infant's individual need, is next to breast feeding the most certain preventive of the disease.

QUESTIONS AND ANSWERS  
A Matter of Fact  
You advised a correspondent that tomatoes tend to reduce acidity of the urine and increase the alkalinity of the blood. Please allow me to mention some facts about eating tomatoes. Upon one man's statement that he had eaten tomatoes, he suffers from gout. I thought it a fool's idea. Then I watched him. I found it exactly the reverse. I made many inquiries (I am a traveling salesman) in half a dozen states, and I found nineteen out of two dozen travelers tell the same tale as this for what it is worth. (W. D.)

ANSWER—Pure fresh defatted often mislabeled "chemically" it has been clearly shown that the ash of tomato is decidedly alkaline, and tomato contains but slight traces of oxalic acid (the acid salt). Therefore there is no reason why persons with joint disease be gout or not, should avoid tomatoes. Indeed, in practice we find tomatoes quite as effective as most fruits in diminishing the acidity of the urine and causing increased excretion of acid intoxication. More likely the nineteen traveling men suffered from eating two kinds of meat three times a day.

Copyright by Dodd, Mead and Co., Inc.  
Mr. Jones called out from the doorway: "Mr. Barnes, you're wanted in there.""All right," he responded.  
The doctor had been working over the prostrate form on the table. As Barnes entered the room, he looked up and declared that the man was dead. "This is Mr. Barnes," said Putnam Jones, indicating the tall traveler with a short jerk of his thumb.

"I am from the sheriff's office," said the man who stood beside the doctor. The rest of the crowd evidently had been ordered to stand back from the tables. "Did you ever see this man before?"

"Not until he was carried in here an hour ago."

"What's your business up here, Mr. Barnes?"

"I have no business up here. I just happened to stroll in this evening."

"Well," said the sheriff dubiously, "but how do you know it ain't a forgery?"

"You don't know, of course. But in case it shouldn't be a forgery and I am subjected to the indignity of arrest or even detention, you would have a nasty time defending yourself in a civil suit for damages. I shall remain here, as you suggest, but only for the purpose of aiding you in getting to the bottom of this affair."

Standing on Jim Conley's front porch a little after sunrise, Barnes made the following declaration:

"Everything goes to show that these men were up here for one of two reasons. They were either trying to prevent or to enact a crime. The latter is my belief. They were afraid of me. Why? Because they believed I was trailing them and likely to spoil their game. Gentlemen, those fellows were here for the purpose of robbing the place you call Green Fancy."

"What's that?" came a rich, mellow voice from the outskirts of the crowd. A man pushed his way through and confronted Barnes. He was a tall, good-looking fellow of thirty-five, and it was apparent that he had dressed in haste. "My name is O'Dowd, and I am a guest of Mr. Curtis at Green Fancy."

"Am I to consider myself under arrest, sir?"

"I wouldn't go so far as to say that. You just stick around here, that's all I got to say. If you're all right, we'll soon find it out. What's more, if you are all right you'll be willing to stay. Do you get me?"

"I certainly do. And I can now assure you, Mr. Sheriff, that I'd like nothing better than to stick around here, as you put it. I'd like to help clear this matter up. In the meantime, you may readily find out who I am and why I am here by telegraphing to the mayor of New York city. This document, which experience has taught me to carry for just such an emergency as this, may have some weight with you." He opened his bill folder and drew forth a neatly creased sheet of paper. "Read it, please, and note the date, the signature, the official seal of the New York police department, and also the rather interesting silver print pasted in the lower left hand corner. Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep the pink of condition. 10c and 25c per box. All druggists.

"Everything goes to show that these men were up here for one of two reasons. They were either trying to prevent or to enact a crime. The latter is my belief. They were afraid of me. Why? Because they believed I was trailing them and likely to spoil their game. Gentlemen, those fellows were here for the purpose of robbing the place you call Green Fancy."

"What's that?" came a rich, mellow voice from the outskirts of the crowd. A man pushed his way through and confronted Barnes. He was a tall, good-looking fellow of thirty-five, and it was apparent that he had dressed in haste. "My name is O'Dowd, and I am a guest of Mr. Curtis at Green Fancy."

"Am I to consider myself under arrest, sir?"

"I wouldn't go so far as to say that. You just stick around here, that's all I got to say. If you're all right, we'll soon find it out. What's more, if you are all right you'll be willing to stay. Do you get me?"

"I certainly do. And I can now assure you, Mr. Sheriff, that I'd like nothing better than to stick around here, as you put it. I'd like to help clear this matter up. In the meantime, you may readily find out who I am and why I am here by telegraphing to the mayor of New York city. This document, which experience has taught me to carry for just such an emergency as this, may have some weight with you." He opened his bill folder and drew forth a neatly creased sheet of paper. "Read it, please, and note the date, the signature, the official seal of the New York police department, and also the rather interesting silver print pasted in the lower left hand corner. I think you will agree that it is a good likeness of me. Each year I take the precaution of
